

Why **WARDFlex**?

CONTINUOUS RUN COILS

- No surprises during installation
- WARDFlex tubing is not butt-welded together
- All WARDFlex coils are manufactured in continuous lengths

STEPSAVER DOUBLE-SEALED FITTING

WARDFlex fittings incorporate two independent seats into the sealing of the fitting.

- One metal to metal seat
- One metal to gasket seat as a secondary seat
- Fittings are completely re-usable

HELIUM/ VACUUM TESTING

- 100% of WARDFlex tubing is vacuum tested with helium
- Helium allows for a more stringent test than air testing alone
- WARDFlex tubing is guaranteed 100% leak free from the factory

DOUBLE ANNEALED

- All WARDFlex tubing is annealed twice to increase flexibility
- Far more flexible than competitor's product
- Significant reduction in the "spring back" factor

ASSISTANT APP

All WARDFlex fittings are compatible with both **Yellow** and Black CSST products, ensuring easy installation.

WARDFlex **StepSaver** design makes installation simple with four easy steps:

1 Cut tubing and remove PE coating to expose a minimum of 4 corrugations.

2 Slide nut over tubing, place retainer ring leaving one corrugation exposed.

3 Slide nut over retainer ring and hand tighten.

4 Tighten with wrenches until nut contacts body.

PROTECTION DEVICES AND COMPONENTS

Striker Plates

Hardened steel plates used to protect WARDFlex tubing from nails, screws, staples, etc.

Stripwound Conduit

Adds extra protection to WARDFlex tubing where it is restricted.

Manifolds

Allows for a central distribution point for gas lines running to multiple appliances.

WARDFlex Valves

Valve/Fitting combination that saves time and adds convenience.

Reel Caddy

Transports and stores WARDFlex tubing with ease.

Tubing Reel

Eases installation, transport and storage of WARDFlex tubing.

Stub Outs

Designed to support a gas meter or to terminate the tubing behind a gas appliance.

Gas Outlet Box

Offers a recessed termination point and valve to allow for clearance issues behind gas appliances.

Quick Connect Box

Allows for an easy and aesthetic way of hooking up movable appliances such as gas grills, heaters, and portable fire places.

Tubing Cutter

Cuts the tubing smoothly and quickly to allow for fast and easy product installation.
